Lab #9 Normalization 3

1.) The functional dependencies are as follows: "Crew" depends on both "Astronauts" and "Spacecraft", "Systems" depends on "Parts", "Parts" depend on "Suppliers", and "Catalog" depends on "Suppliers".

2.) The PDF of the Lucid Chart will be posted on the GitHub.

3.) The database I have is in third normal form because it is already in second normal form, and every attribute of the primary keys in each table, are dependent on the primary key.
